#### SKETCHES BY GROUP -

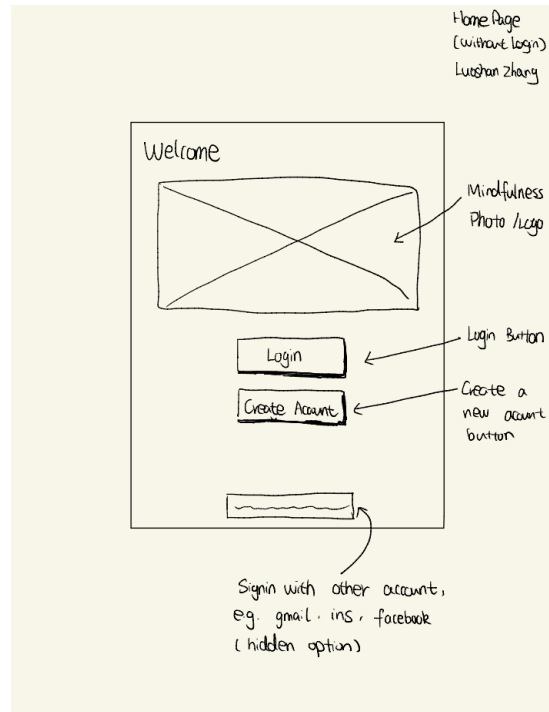

These are the narrowed down 20 sketches. These are the sketches we've chosen from all our sketches (total 34ish), so all these are promising in their own way. They have been arranged according to the order of the application flow and non-essential features are the ones to be considered as relatively less promising.

##### 1. Created by - Prajakta

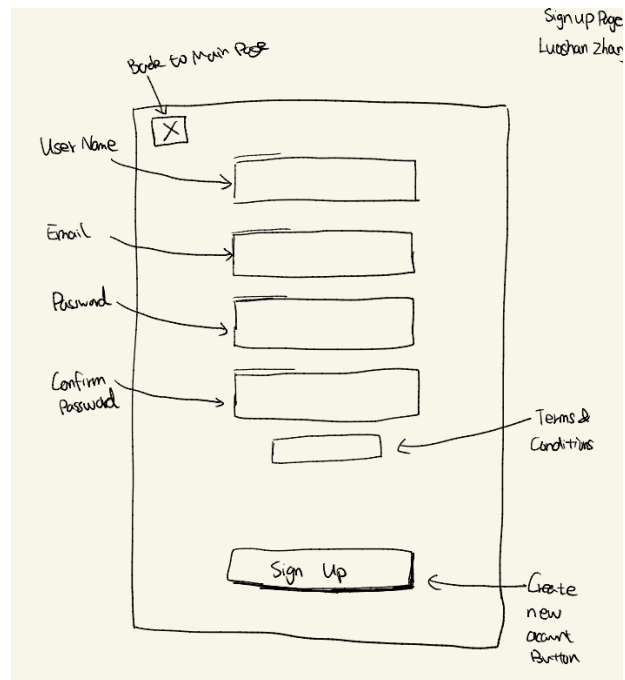

Evaluation - Showed a minimal but cozy design for the application page which the team agreed gives a peek to how the app is designed.

## 2. Created by - Luoshan

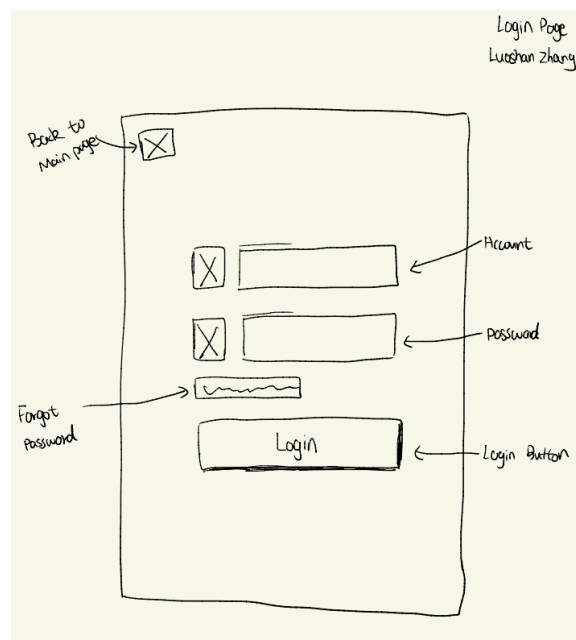

Evaluation – The application page fades into this page, which was the best sketch among the four sketches that showed all options and was easily understandable as well as visually pleasing.

## 3. Created by – Luoshan

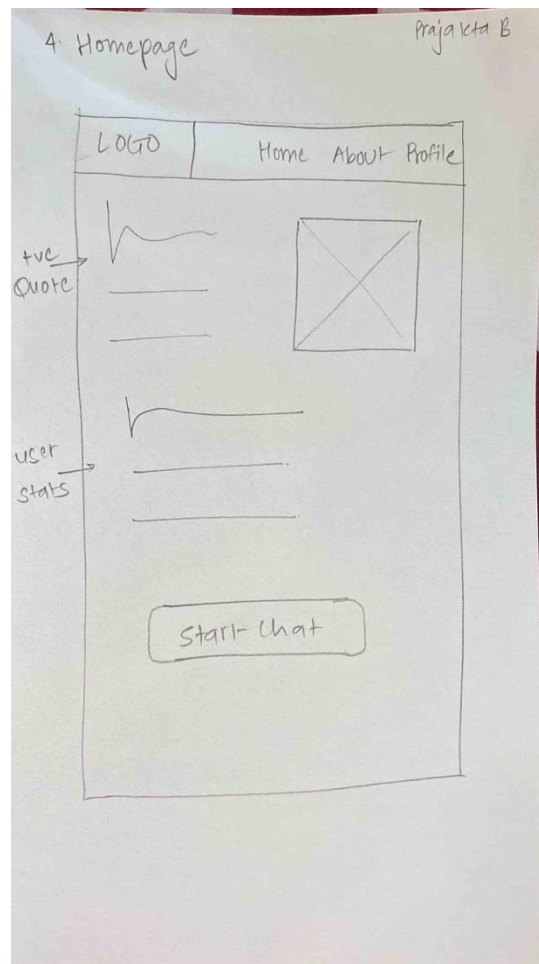

Evaluation – This sketch had well thought out additions like back to main page icon, and terms and conditions which made it promising

#### 4. Created by - Luoshan

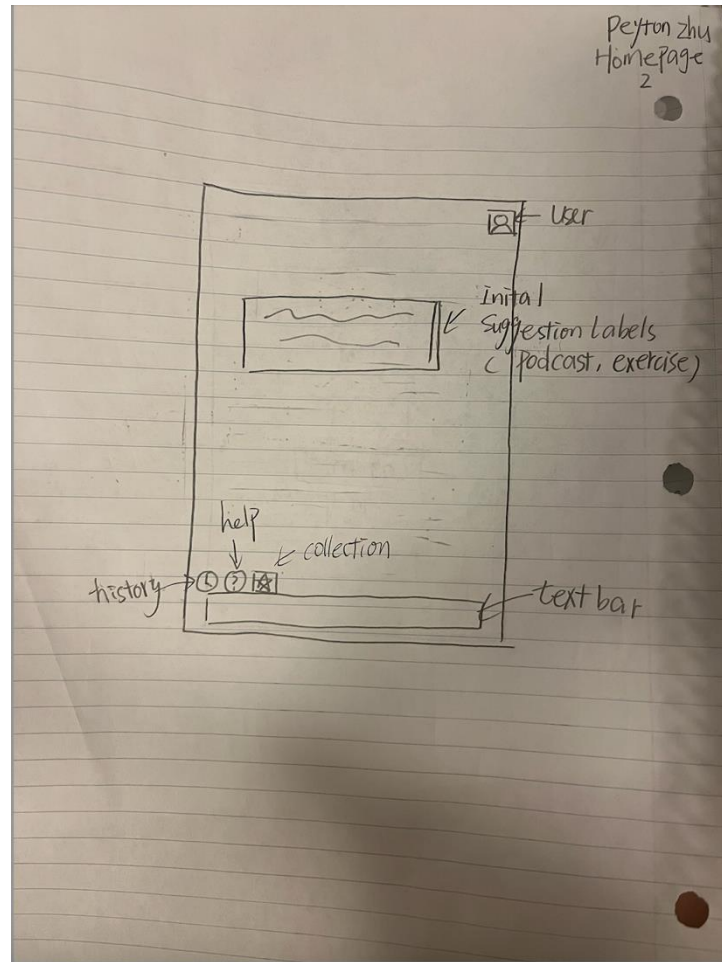

Evaluation – All the sketches for login page were similar to each other, but this one was the cleanest and looked most promising.

5. Created by - Prajakta

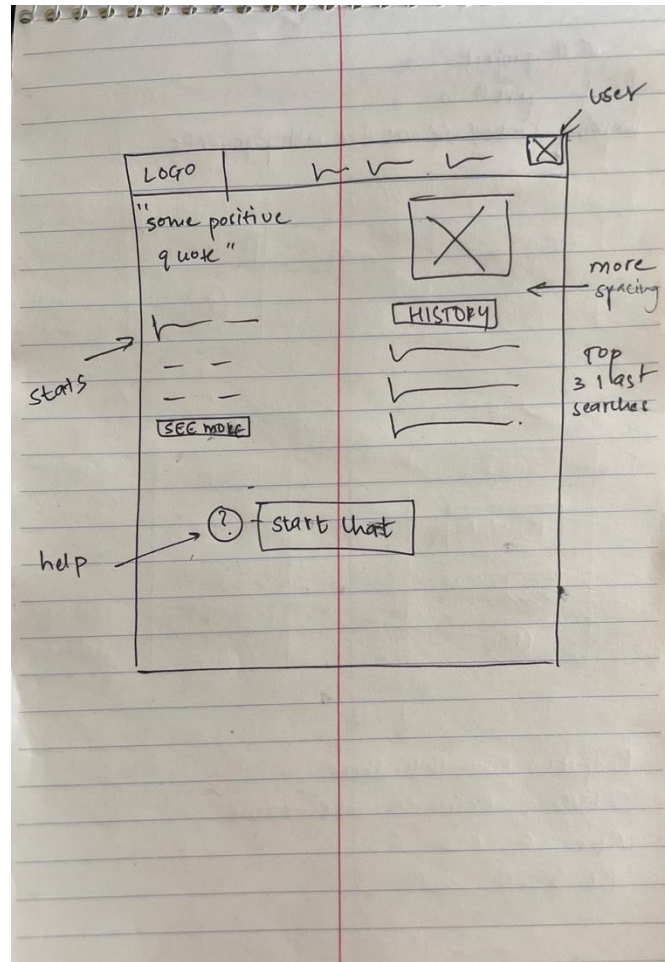

Evaluation – Most feasible with a few modifications made below

6. Created by - Ajing

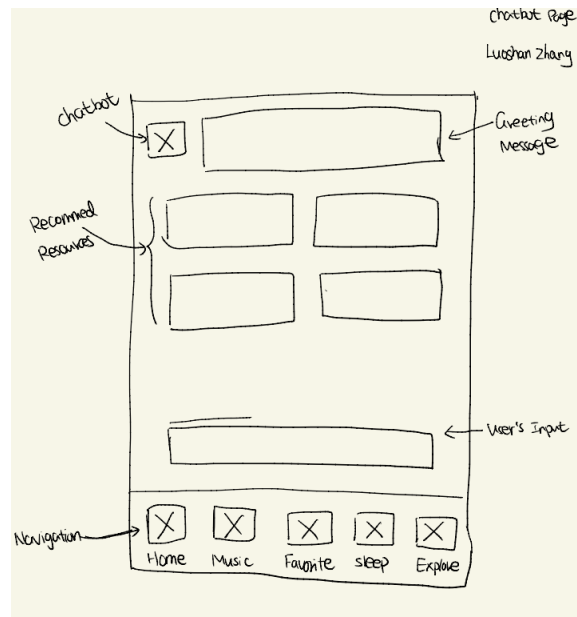

Evaluation – Had icons for help and history that we found imperative to maintain.

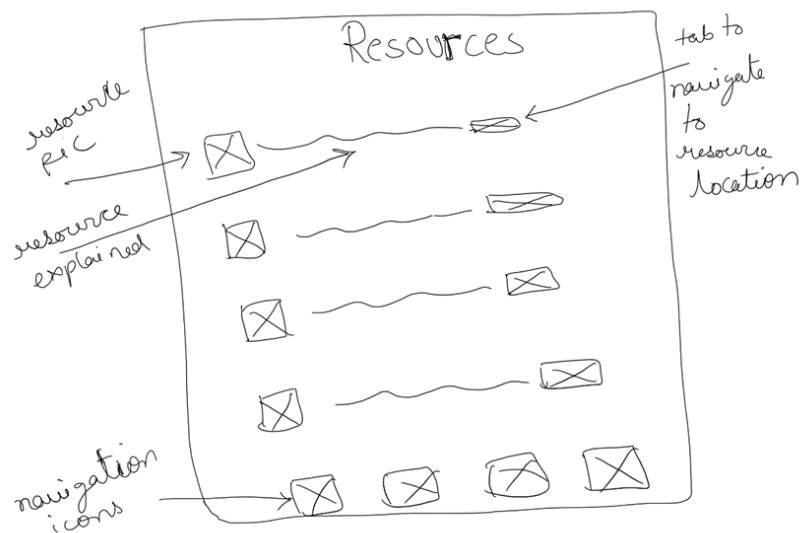

We merged the above two homepages to create one concise homepage that contained all information like stats and history and user icons and chat button.

7. Created by – Luoshan

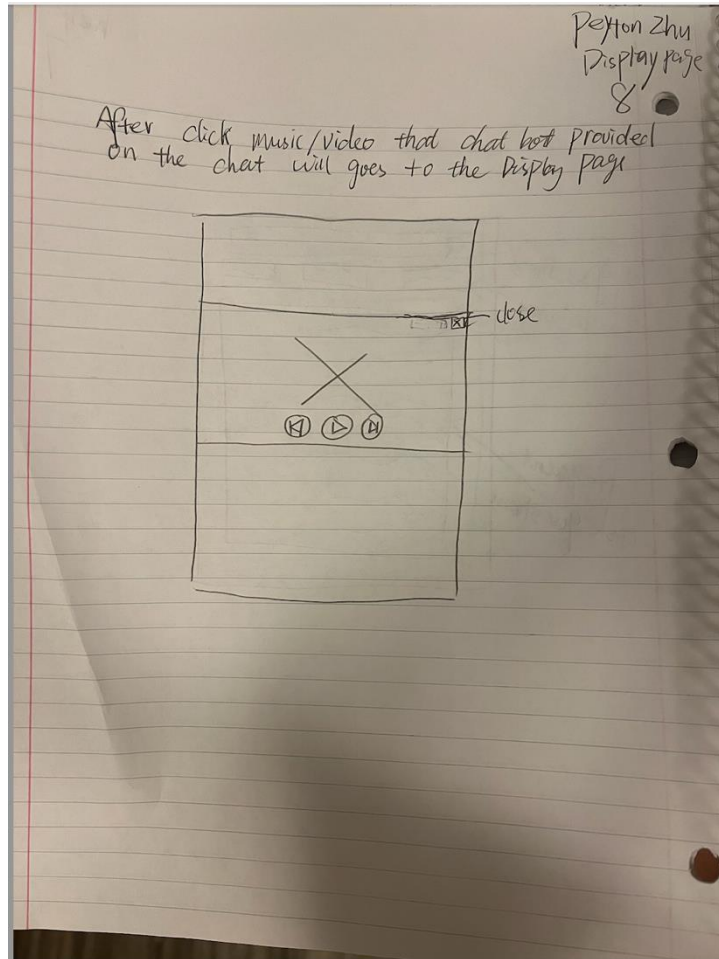

Evaluation – Chatbot conversation page with links that was most promising.

8. Created by - Priya

Evaluation – Resources page provided by chatbot that was the most feasible. It had resource information and links and was designed in a minimal manner, that was the advantage.

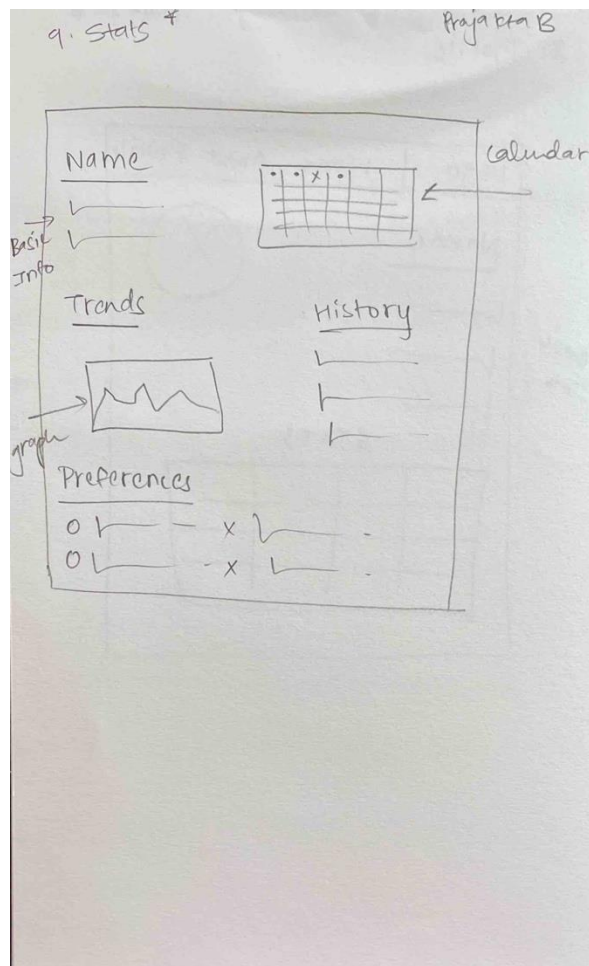

9. Created by - Ajing

Evaluation – Very thoughtful, no one thought of a sketch to also show the redirection of links.

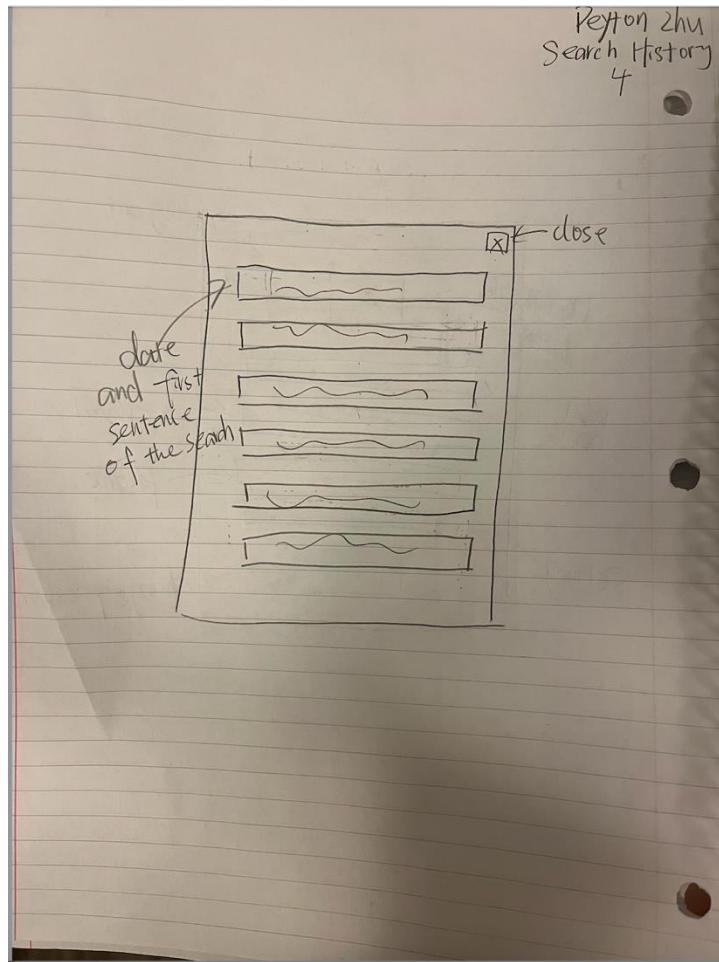

10. Created by - Prajakta

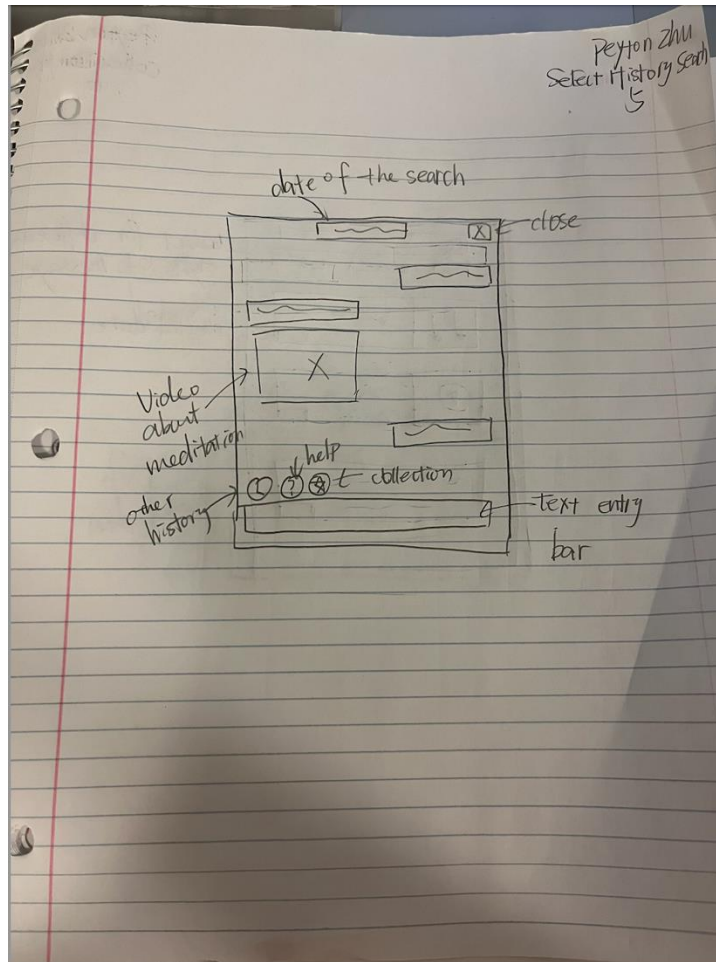

Evaluation – Stats page – showed originality

11. Created by - Ajing

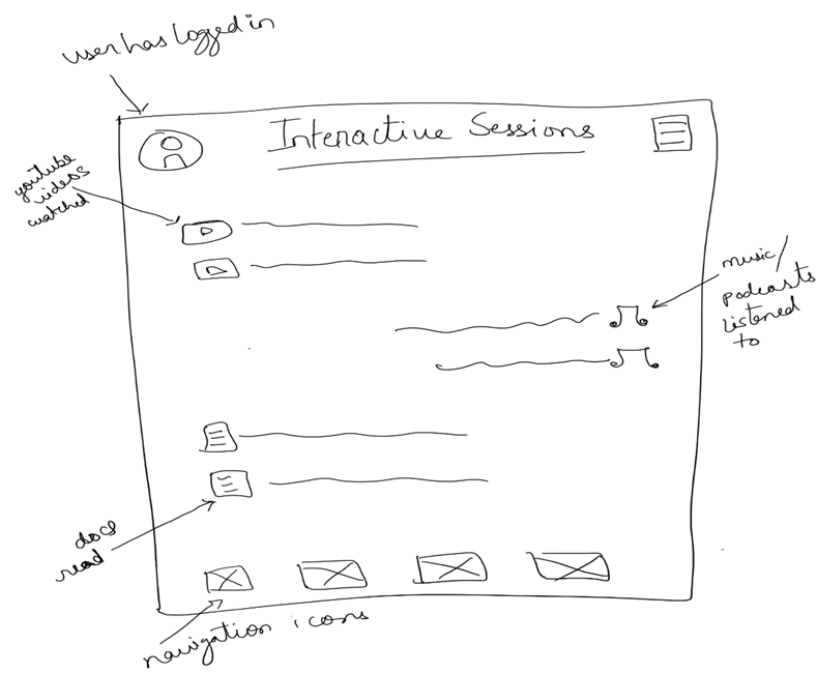

Evaluation – Most promising history page with simple design.

12. Created by - Ajing

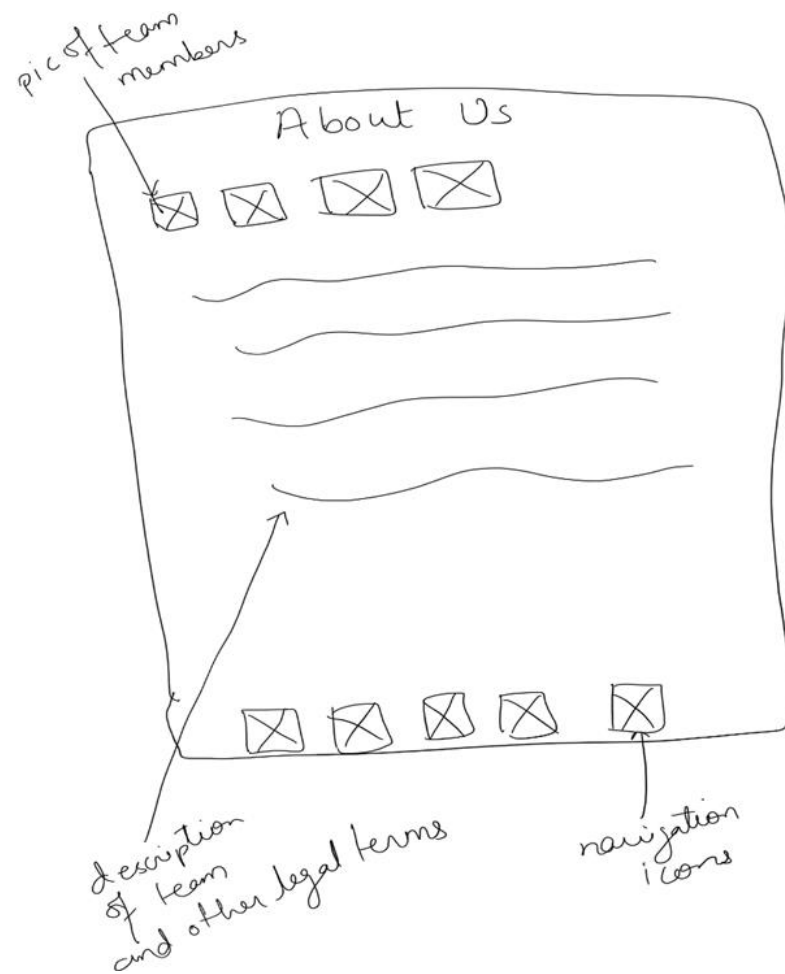

Evaluation – Detailed history information of a particular tab clicked on in 11. Image. Was original and promising.

13. Created by - Priya

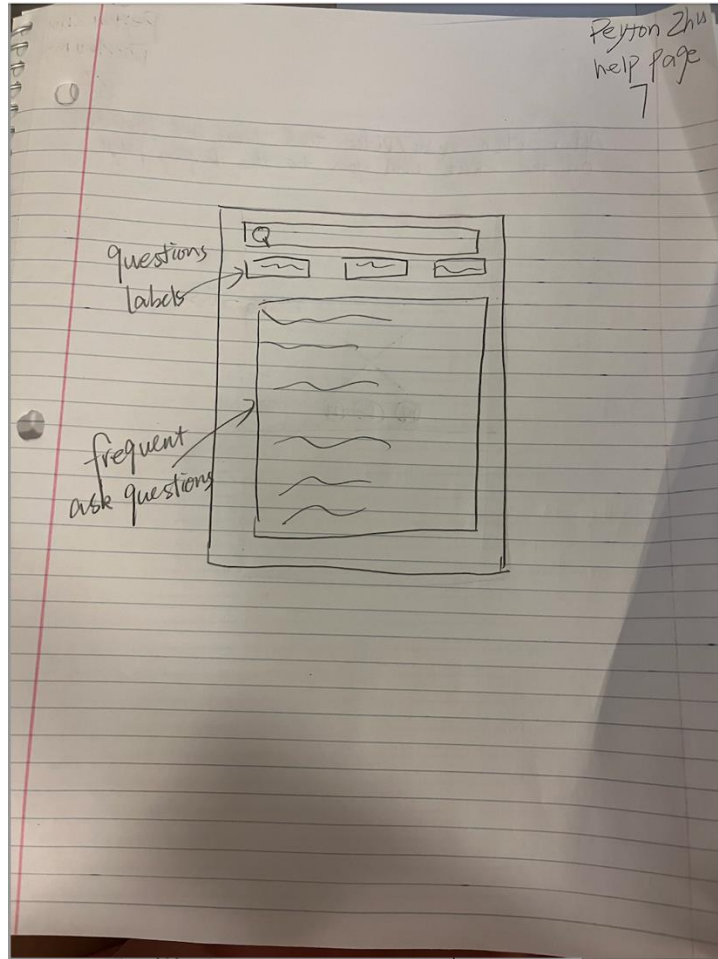

Evaluation – Another interface for history that was innovative.

14. Created by - Priya

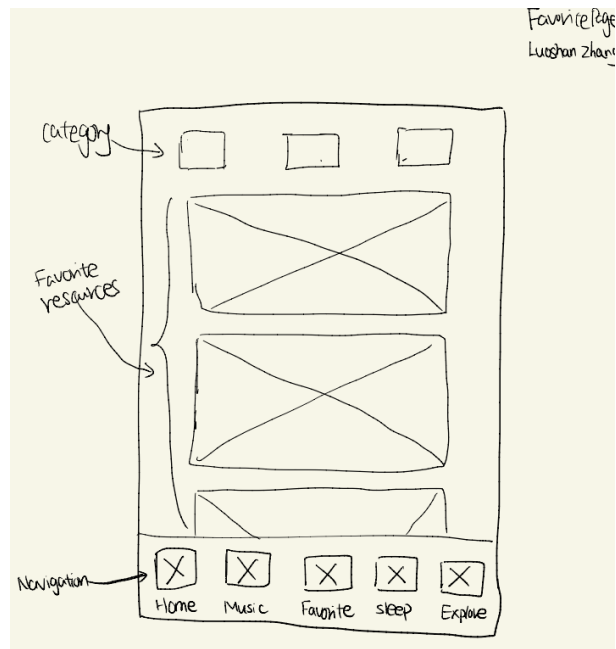

Evaluation – Chosen About page for its detailed information and simple UI.

15. Created by - Ajing

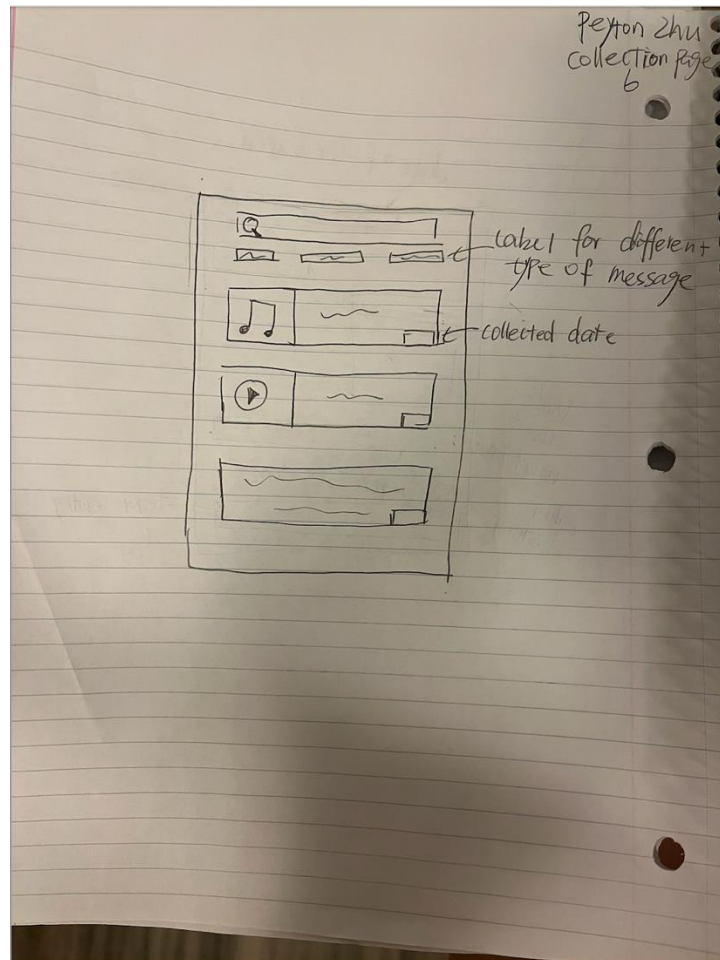

Evaluation – helpful to have for common FAQs

16. Created by - Luoshan

Evaluation – Promising feature for user's favorites

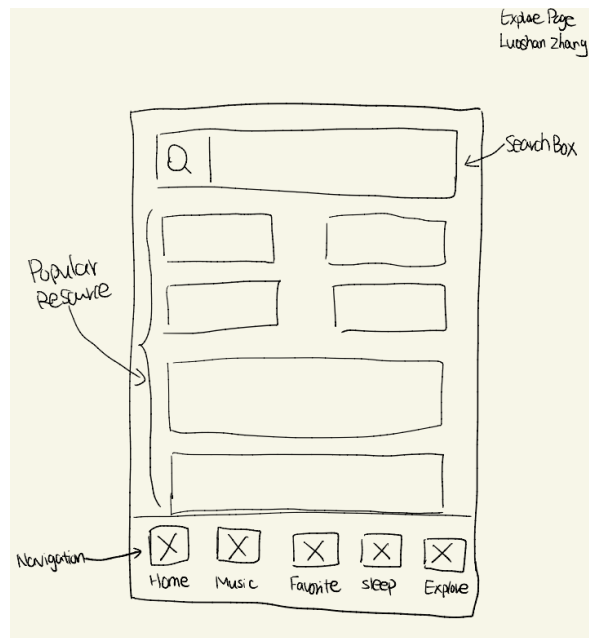

17. Created by - Ajing

Evaluation – Similar to favorites in 14. Looked fun! non-essential.

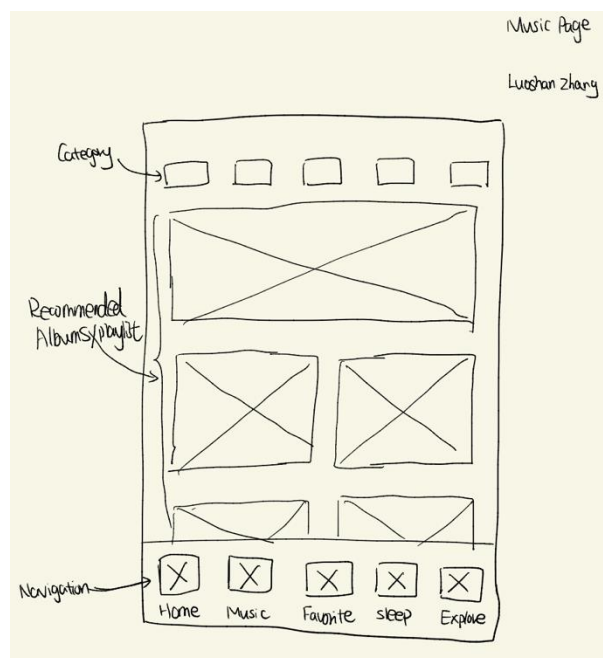

18. Created by - Luoshan

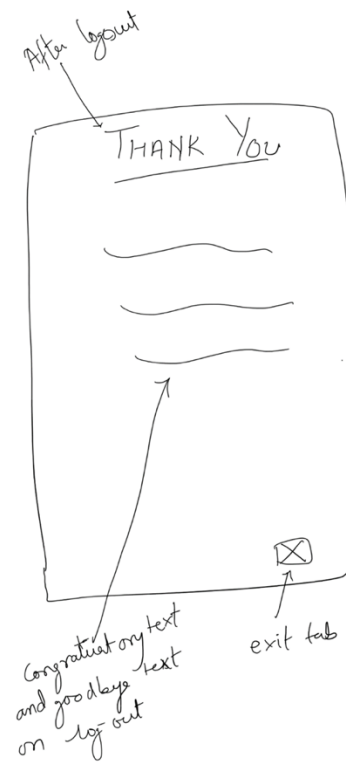

Evaluation – Promising feature for the app, after all essentials are done! non-essential.

19. Created by - Luoshan

Evaluation – Similar to 15. But for music. Looked interesting! Might be a fun non-essential feature.

20. Created by - Priya

Evaluation – Thoughtful feature to have to flash while user exits the app. non-essential!
